Your Gateway to Petroleum Products: Lubricants, chemical, bunkering, ultra low sulphur inland diesel

Our Reference No. 107201030

Date: 20th July 2020

FOR : STRIKE ASSOCIATES ONLY

Dear ASSOCIATES

INTRODUCTION:

We had been appointed the authorized Representative to distribute RSC Bio Biodegradable EALs (Environmentally Acceptable Lubricants)

RSC's first-of-its-kind, FUTERRRA HF series patented sugar-based renewable hydrocarbon EAL and ENVIROLOGIC HF HP series are EAL Hydraulic Fluids formulated with RSC's unique chemical platform based on patented HEPR-PAO Hydrocarbon-based technology. Other EALs with HETG (Triglycerides-based), HEES (Esters-based) and HEPG (Glycols-based) have much shorter lifespan on finished products and usages

MANDATORY USA Laws for EALs

Vessels entering US waters must have an EAL in all water interfacing applications (e.g. stern tubes, thrusters, CPP). You can refer to the attached EPA-HQ-OW-2011-0141 governing such laws. Our EAL can also be used for above waterline applications (e.g. on deck, cranes) etc.

PRODUCT NAME	PRODUCT DESCRIPTION	APPLICATION/REMARKS
FUTERRA HF SERIES HF 46, HF 68 & HF 100	RSC's product is based on a unique chemical platform. The HEPR technology is DIFFERENT from other EALs RSC's philosophy is aimed at	Stern tubes, thrusters, CPP 7-year product warranty RSC EALs are:
ENVIROLOGIC HF HP SERIES 46, 68 & 100	SUSTAINABILITY & PERFORMANCE SUSTAINABILITY : Readily biodegradable, minimally toxic and Non-sheening PERFORMANCE: Chemical stability, system compatibility and Equipment longevity and protection	<ul style="list-style-type: none"> Ecolabel Certified 2013 EPA VGP Compliant Non-sheening Mixable with other EAL equivalents
	In the market today e.g. HEES/Esters and HEPG EALs, have had various problem). RSC's HEPR technology eliminates these problems and has several key advantages: higher productivity, lower life cycle cost, less risk for equipment owner	

Notes:

Other RSC EALs available are

- Gear Oil : EnviroLogic GO series 68, 100, 150, 220 & 320
- Grease : EnviroLogic Grease Series 0, 1 & 2
- Wire Rope Grease : EnviroLogic Grease 2 WREP
- Forestry/Plantation RSC EnviroLogic LO 46 & LO 100
- Forestry/Plantation RSC EnviroLogic UTF (Universal Tractor Fluid) 46
- Attached are the Product Data Sheets for your kind reference; our SDS are available on request
